Local gov  
Dev skills  
Open & Civictech  
activist

Building coalitions  
between  
communities and  
local governments,  
digital literacy  
stakeholders,  
public services,  
researchers,  
activists ...

## What we work for >>

A digital society should achieve **citizen empowerment** to be **innovative** and **inclusive**

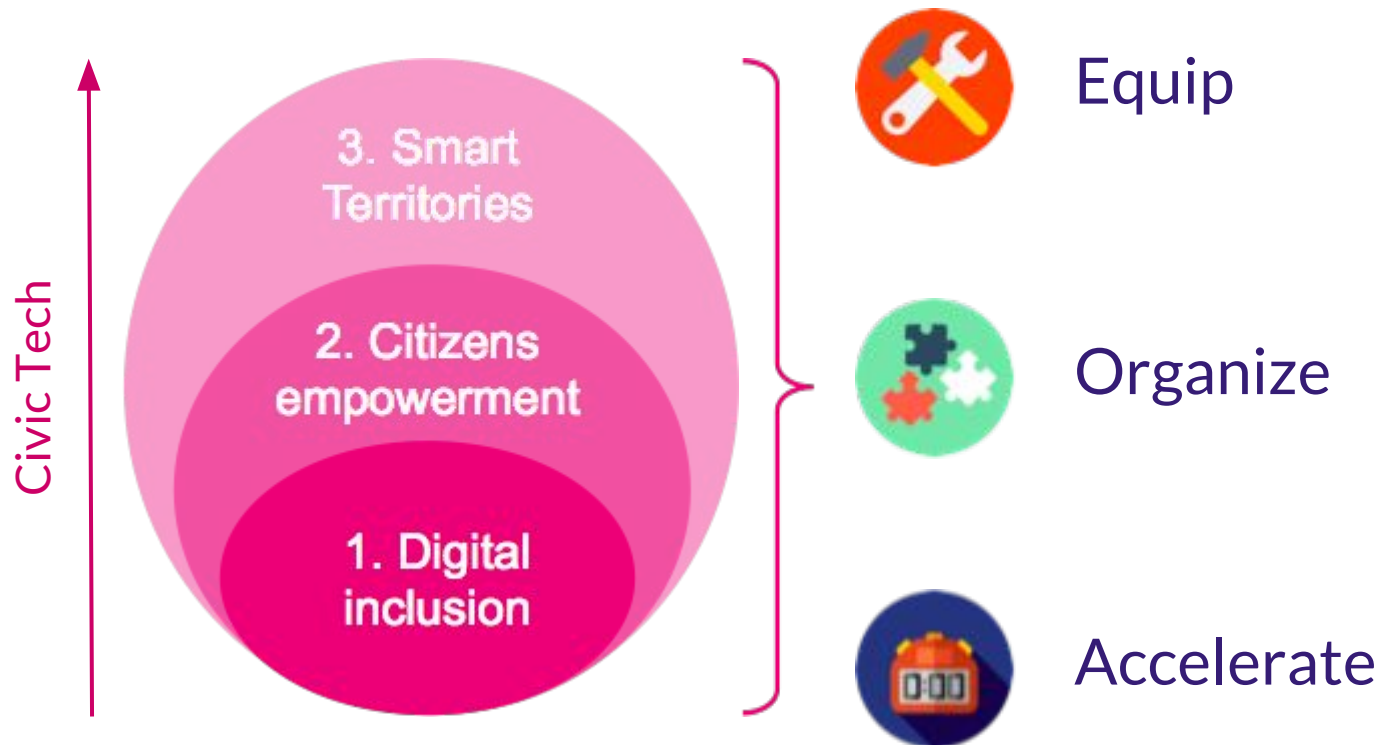

#SocialContract  
#Equality

#EconomicGrowth  
#Skills #Jobs

## What we do >>>

We work on empowering citizens to seize the digital opportunities and we support the local governments' digital transition

## What we know about digital literacy >

# Civic tech without digital inclusion is not a force of empowerment and social change

- We worked on local and nationwide online debates
- The successful ones relied heavily on field support, local community centers and internet public access points

# DESIGNING A VIRTUOUS CIRCLE

## TRAINING AND INNOVATION CENTERS

- Fablabs, makerspaces, libraries, public internet access points...
- Receive the voucher kit (scanner, platform access)
- Register its training programs
- Train the users
- Go to the platform to get paid

## APTIC PLATFORM

- Dashboard & order management
- Mapping of the eligible training centers
- Order / supply / print management
- Certification of training centers

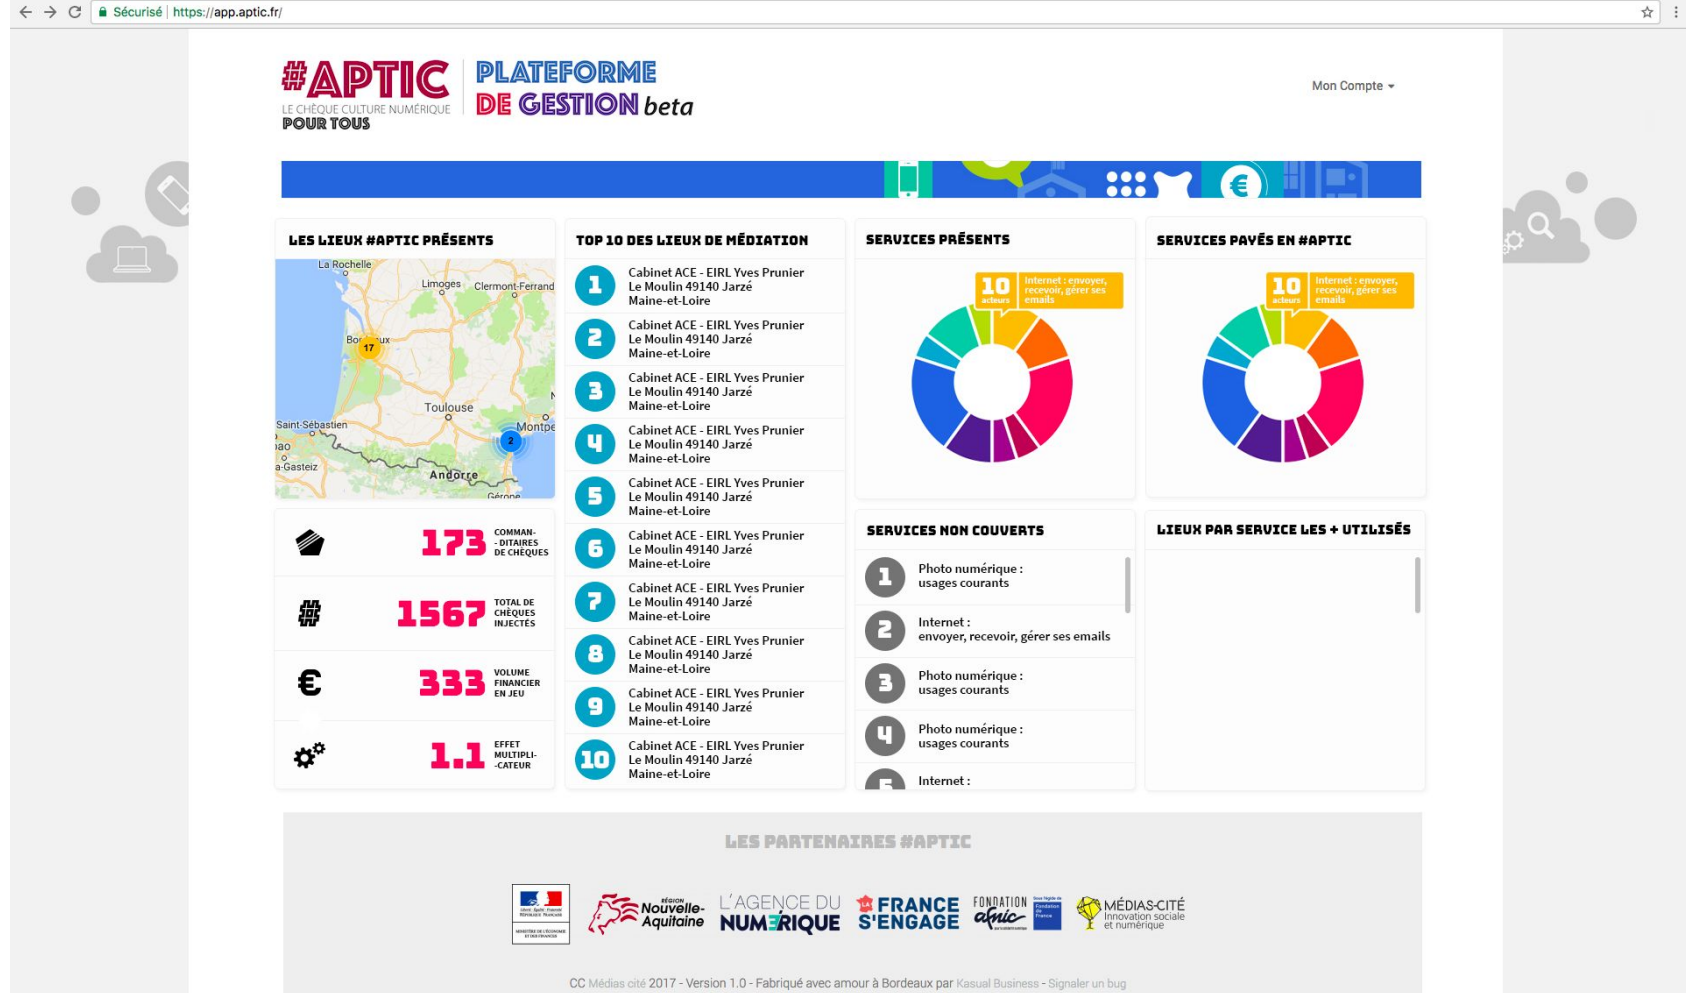

## PROVIDERS

- Order vouchers
- Define, if he choose to, distribution rules (targeting specific skills, areas, etc...)

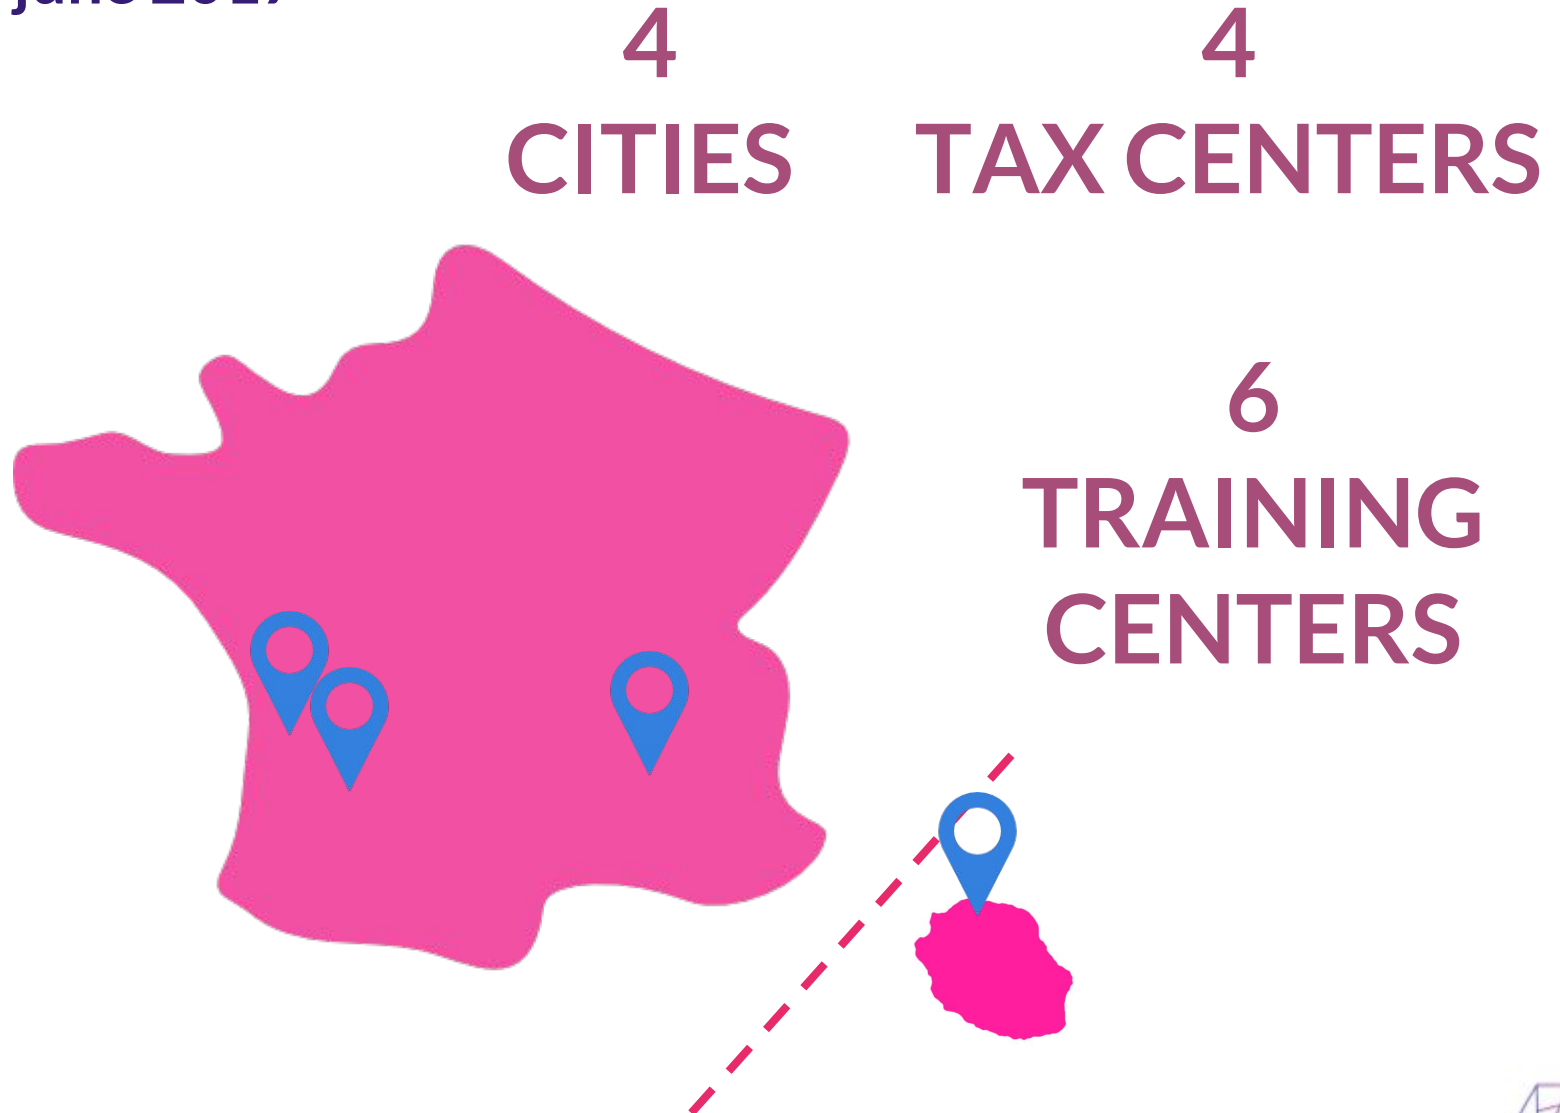

## USERS

- receive the voucher
- choose the training he needs
- pay entirely or partially the training with the voucher

A three-months experiment between april and  
june 2017

# Territories chosen for their different social and digital backgrounds

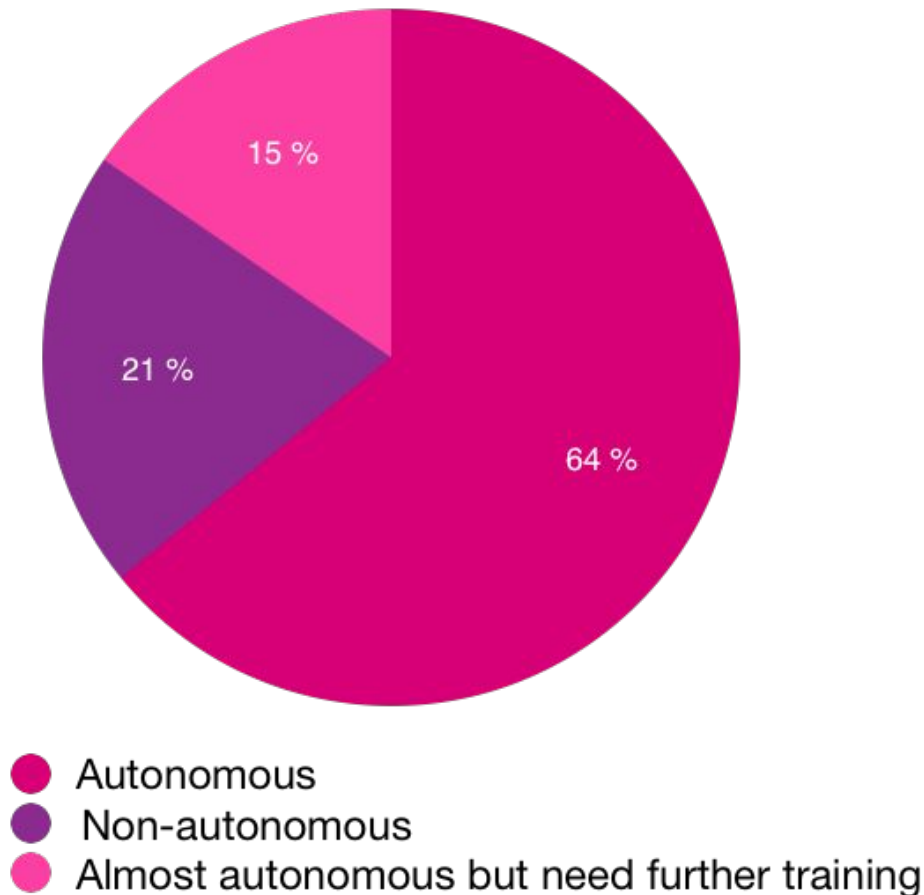

## EXPERIMENT

	Fiscal households	Eligible to income tax	Low income tax exempt households	% of tax exempt households	Estimated level of citizens filing their tax returns online
SIP ROMANS-SUR-ISERE	64 482	24 351	40 131	<b>62%</b>	<b>45%</b>
SIP LA REOLE	20 377	6 089	14 288	<b>70%</b>	<b>43%</b>
SIP LIBOURNE	87 322	30 605	56 717	<b>65%</b>	<b>39%</b>
SIP ST-DENIS-DE-LA-REUNION OUEST + EST	154 019	38 100	115 919	<b>75%</b>	<b>38%</b>
TOTAL NATIONWIDE	37 458 506	15 960 398	21 498 108	<b>57%</b>	<b>46%</b>

## What we have learned >

- Civil servants and digital trainers learned how to split their tasks between teaching fiscal issues and digital issues ; it was a major concern for unions representatives
- There was a significative gender gap (60% of those who applied were women).
- the turnout was lower than expected
- only 27% used all the vouchers

## Level of autonomy per user after the training sessions (self evaluation)

**12%**

of trained citizens were aware of the presence of a digital training center in their neighborhood

**35%**

used one of the vouchers to take a course in another topic

**55%**

expressed the will to learn more skills
